ants engaged to do the work. A communication from General Passenger Agent Edwards of Detroit was read, in which he guaranteed one half fire on all roads rusining into this city during the days of the fair, and the Michigan Central road has promised the same train schedule to the fair grounds as was adopted last year, at 15 cents for the round trip. The officers of the association expect 25,000 Maccabees to attend the fair on Wednessiay, the second day, as that day has been setapart as Maccabee day in honor of the thousands of visitors who are expected here at the great camp review during that week. Heary S. Fralick, a veteran fair worker and director of the state agricultural society has assured the association that he will do all he can toward making the fair a success. The directors have decided to close the entrance on the south side of the grounds this year and admit visitors from the main entrance only on the north side. Thursday will be bicycle day, and all entries for the race are requested to be made to H. W. Stebbins of the Grand Rapids clot. The directors will meet again Saturday afternoon, September 2.

of John Hanson was taken yesterday. Conductor Grout, whose train took Hanson to Fisher, swore that he had no ticket when he entered the train shed at the depot, but the gate-keeper let him pass because the train was pulling out. The brakeman learned that Hanson had lost his ticket before the train reached the south yards, but did not make him get off. At Fisher Hanson got off without any urging. Mr. Grout said he was not very drunk, but had a bottle with him. The station agent at Fisher swore that Hanson did not remain at Fisher more than twenty minntes. He did not see him go away, but twenty minutes after the train left he could not be seen anywhers. The jury decided that Hanson went to sleep on the track and was killed through no fault of the railroad.

Patrolman Brown made an impor-Patrolman Brown made an important capture yesterday, and while the men are not old criminals they have shown by their work that they are dangerous men. Their names are Otto Smith and Adeibest Schrephorn. Last Sunday night Billy Handlin's place on Walker arenue was robbed of six botties of liquor and ten boxes of cipars. Later in the week the pestoffice and store at Herrington was burgiarised and the following goods taken: Two pairs of pants, two pairs of shoes, two white shirts, four pairs of cuffs, three dozen cigars. tire safety, evidently stolen from someone.

The officers searched the Smith house without a search warrant, so they were obliged to take whatever abuse was heaped upon them. Mrs. Smith chased "Case" Gast around the house trying to get a hold on his hair, but finding none she siezed a broom and beat him over the head with all the fury of a perfect virage. The detectives dodged the blows as best they could and recovered all the articles they were sure were stolen. There is a good case against Mrs. Smith for secreting stolen goods and she will probably be arrested. As the most serious offense was committed in Ottawa county they will be tried in that county. The sheriff of that county arrived in the city yesterday morning and took the prisoners to Grand Haven. Smith is 17 years old and the other boy is 18. The detectives declare that Smith has played in great luck if by going to Jackson he can escape from living in the same house with his mother.

Feautiful teeth are a luxury few possess.

We have heard people say they would give everything they had for such beautiful teeth as so and so had.

The true secret is not so much in the perfectness of the teeth as in the snow like whiteness and the brillisat polish.

All touth are capable of this with proper care. Washes and pastes should be avoided as they are injurious as are also many of the powders. A properly propered powder, however, is the only right and perfect thing to cleanse and preserve the teeth. This we have succeeded in producing after much labor land expense. The formula is by one of the most noted dentists of of this country and is absolutely perfect.
